Soothe sensitive skin and say bye to dry with the right-for-you Gentle Line—only from Nu Skin.

WHY YOU'LL LOVE GENTLE TREATMENT CLEANSER + LUMISPA® iO

- Provides instant benefits, so skin feels softer and smoother after just one use.
- Seven clinically proven facial skin benefits: softness, smoothness, radiance, clarity, purified skin, reduced pore appearance, and visibly improved firmness.
- Benefits intensify over time when consistently used for two minutes twice daily.
- Delivers brighter, healthier, more youthful-looking skin in as little as two weeks.
- Optimally designed for LumiSpa® iO, Treatment Cleanser is proven to maximize the skin-perfecting benefits of the device.

- Gentle Treatment Cleanser is formulated with Nu Skin's proprietary ageLOC® ingredient blend to target the sources of aging and preserve the look of youth.
- Does not increase skin redness in clinically sensitive skin.
- Improves skin hydration.
- Improves skin clarity.
- Gentle enough for twice-daily use on the face, neck, and décolleté.
- When used in the morning, LumiSpa® iO energizes skin for a fresher, smoother, more rejuvenated complexion.
- When used at night, LumiSpa® iO deeply cleanses and helps de-stress skin.

CLINICAL RESULTS THAT PROVE IT

1. In a 12-week clinical study, clinical grading noted that individuals who used ageLOC® LumiSpa® iO experienced improvements in the skin:

- Softness

What are Adaptogens?

Adaptogens are plants that thrive in extreme climates thanks to their adaptive properties. These special properties help your skin adapt to its changing and unique environment so it can recover from—and gain resiliency to—environmental stressors.

Where can I get answers to questions about my ageLOC® LumiSpa® iO device?

Please consult the ageLOC® LumiSpa® iO User's Manual for information about the ageLOC® LumiSpa® iO system.

GENTLE LINE

How does ageLOC® LumiSpa® iO work with Gentle Treatment Cleanser?

We specifically developed the Treatment Cleansers to use with ageLOC® LumiSpa® iO. They're designed to work synergistically with the micropulse oscillation of the heads to optimize the distribution of anti-aging ingredients onto the skin while cleansing and exfoliating to promote healthy, youthful-looking skin.

Can I use other treatment products with the Gentle Line?

Yes. The Gentle Line is a complete skincare routine, but you can still address individual needs by adding additional treatment products, such as Nutricentials® Eye Love Bright Eyes, Nutricentials Pillow Glow, NaPCA Moisture Mist, etc., for additional benefits.

How long will my Gentle Line last?

The Gentle Line products are optimized for 30-day use.

How do I know which ageLOC® LumiSpa® iO treatment head is right for me?

While each treatment head removes impurities and purifies skin, the Gentle treatment head is our gentlest choice and is great for those with sensitive skin. The Firm treatment head is not recommended for those with sensitive skin. ageLOC® LumiSpa® iO Accent is designed specifically for the eye area when used with ageLOC® LumiSpa® IdealEyes.

How does the Gentle Line support Nu Skin's commitment to become more sustainable?

As responsible stewards of our planet, we have proudly designed our tubes to be made with 37–39% recycled material, and our bottle with 50% recycled material. The Serum pump is made with 19% recycled material and made with a single material, which makes it easier to recycle where Polypropylene (PP) recycling is available. Plus, our palm-oil-derived ingredients are sustainably sourced. Please check your local capabilities and recycle all bottles, cartons, and jars where possible. By purchasing the Gentle line, you're joining us in taking an active, engaged stride to ensure the future is bright for both the planet and each of us.

Please visit www.nuskin.com/sustainability for more information and details on how to recycle.

How are postbiotics different from probiotics?

Probiotics contain live organisms, which is ideal for an ingested product. Postbiotics do not contain live organisms. They are produced during the fermentation process of probiotic bacteria, which makes them better for topical treatments.

Who should use the Gentle Line?

The Gentle Line contains products curated specifically for those who want to target sensitivity and dryness and benefit from formulas that help soothe, calm, and hydrate skin.
